Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State line, trarersing the richest and most populous section of California, and thence through the great miuling regions of the Territories, to the vicinity of Salt Lake City.

It forms the sole Western link of the only route to the Pacific which is adopted by Congress and aided by the issue of United States Bonds.

Their road is already completed, equipped and running for 74 miles from Sacramesto to within 12 miles of the summit of the Sierras, and a large amount at the work of Grading, Tunnelling, &c., berond that point has been accomplished.

The first Mortgage Bonds of this Company afford unusual inducements for safety and Profit to Investors, for the following among other researce, viz.:

York
The Principal is payable in Gold at mate

not. The Frincipal is payable in Gold at maturity.

d. The cost of the Bonds, Ninety-Five Per Cent. and accrued interest, is Ten Per Cent. less than that of the chaspast Six Per Cent. Gold Bearing Bonds of the Government.

Th. The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.

h. Owing to this liberal provision, accompanied with Extensive Grants of Poblic Lands, by which the Government Josters this great nation enterprise, its success is readened certain, and its financial stability is altogether independent of the contingencies which attend ordinary failroad enterprises.

h. The Security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself, mith. The net carnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing rendering the uninterrupted payment of the Interest absolutely certain.

th. At the presentrate of Gold they pay nearly 8% Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of \$1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent and accrued interest (in currency) from January 1st.
